The magic of being outdoors

This spring | summer 2023 we encourage you to see the extraordinary in the ordinary! Explore the outdoors and take a closer look at what surrounds you. See the details and find all the beauty and wonders of nature. Its power can recharge your batteries and help you overcome day to day challenges.

Our outdoor collection made entirely from recycled PET bottles will take you on a little hippy fairy tale. Get inspired by our dreamy locations and move your living room outside to enjoy nature as soon as it starts getting warmer. Our rugs will give you the perfect base. As they are super soft, it will be a pleasure for your feet to walk over them. The matching throws and cushions will complete the look, whether you are styling your picnic party in the park, your balcony, or your tiny house.

We welcome a few new styles to the outdoor collection: This season the new rug SQUARE with matching cushion and throw come in an intense green mixed with a fresh purple and orange to flatter your eyes.

The MUJO series comes with stripes, as stripes never get out of style! The rug, cushion and throw come in joyful colours to chase away any grey clouds. It is easy to combine this series with other items of the outdoor collection as we have been working with existing shades.

To go along with the whole outdoor collection, we have created the series MATCH. These two-coloured cushions and throws can be combined with all existing items. Choose from a sunny yellow, a lavender and green or peony and capri combo, or lastly beige mixed with sky to keep it light.

Take our outdoor textiles with you on your adventure. Clean them with a garden hose if they ever get dirty or wash them in the machine at 30°C. They will come out almost dry. It is that easy!

For colder or rainy days just stay with our sustainable home textiles for indoor: organic cotton, recycled cotton, jute and sea grass will turn your home in a sustainable heaven. Choose from colourful textiles to neutrals, mix and match, or keep it minimalistic. Turn your home into a little oasis of well-being and let our natural materials bring a little piece of nature into your indoor space.

Let's get ready for the summer season and let liv bring life into your home!

goodweave | we care !

our rugs carry the goodweave label, which stands for child labour free certified rugs.

being a licensed manufacturer, we support the educational programs offered by goodweave as a key to reducing child labour and breaking the cycle of poverty.

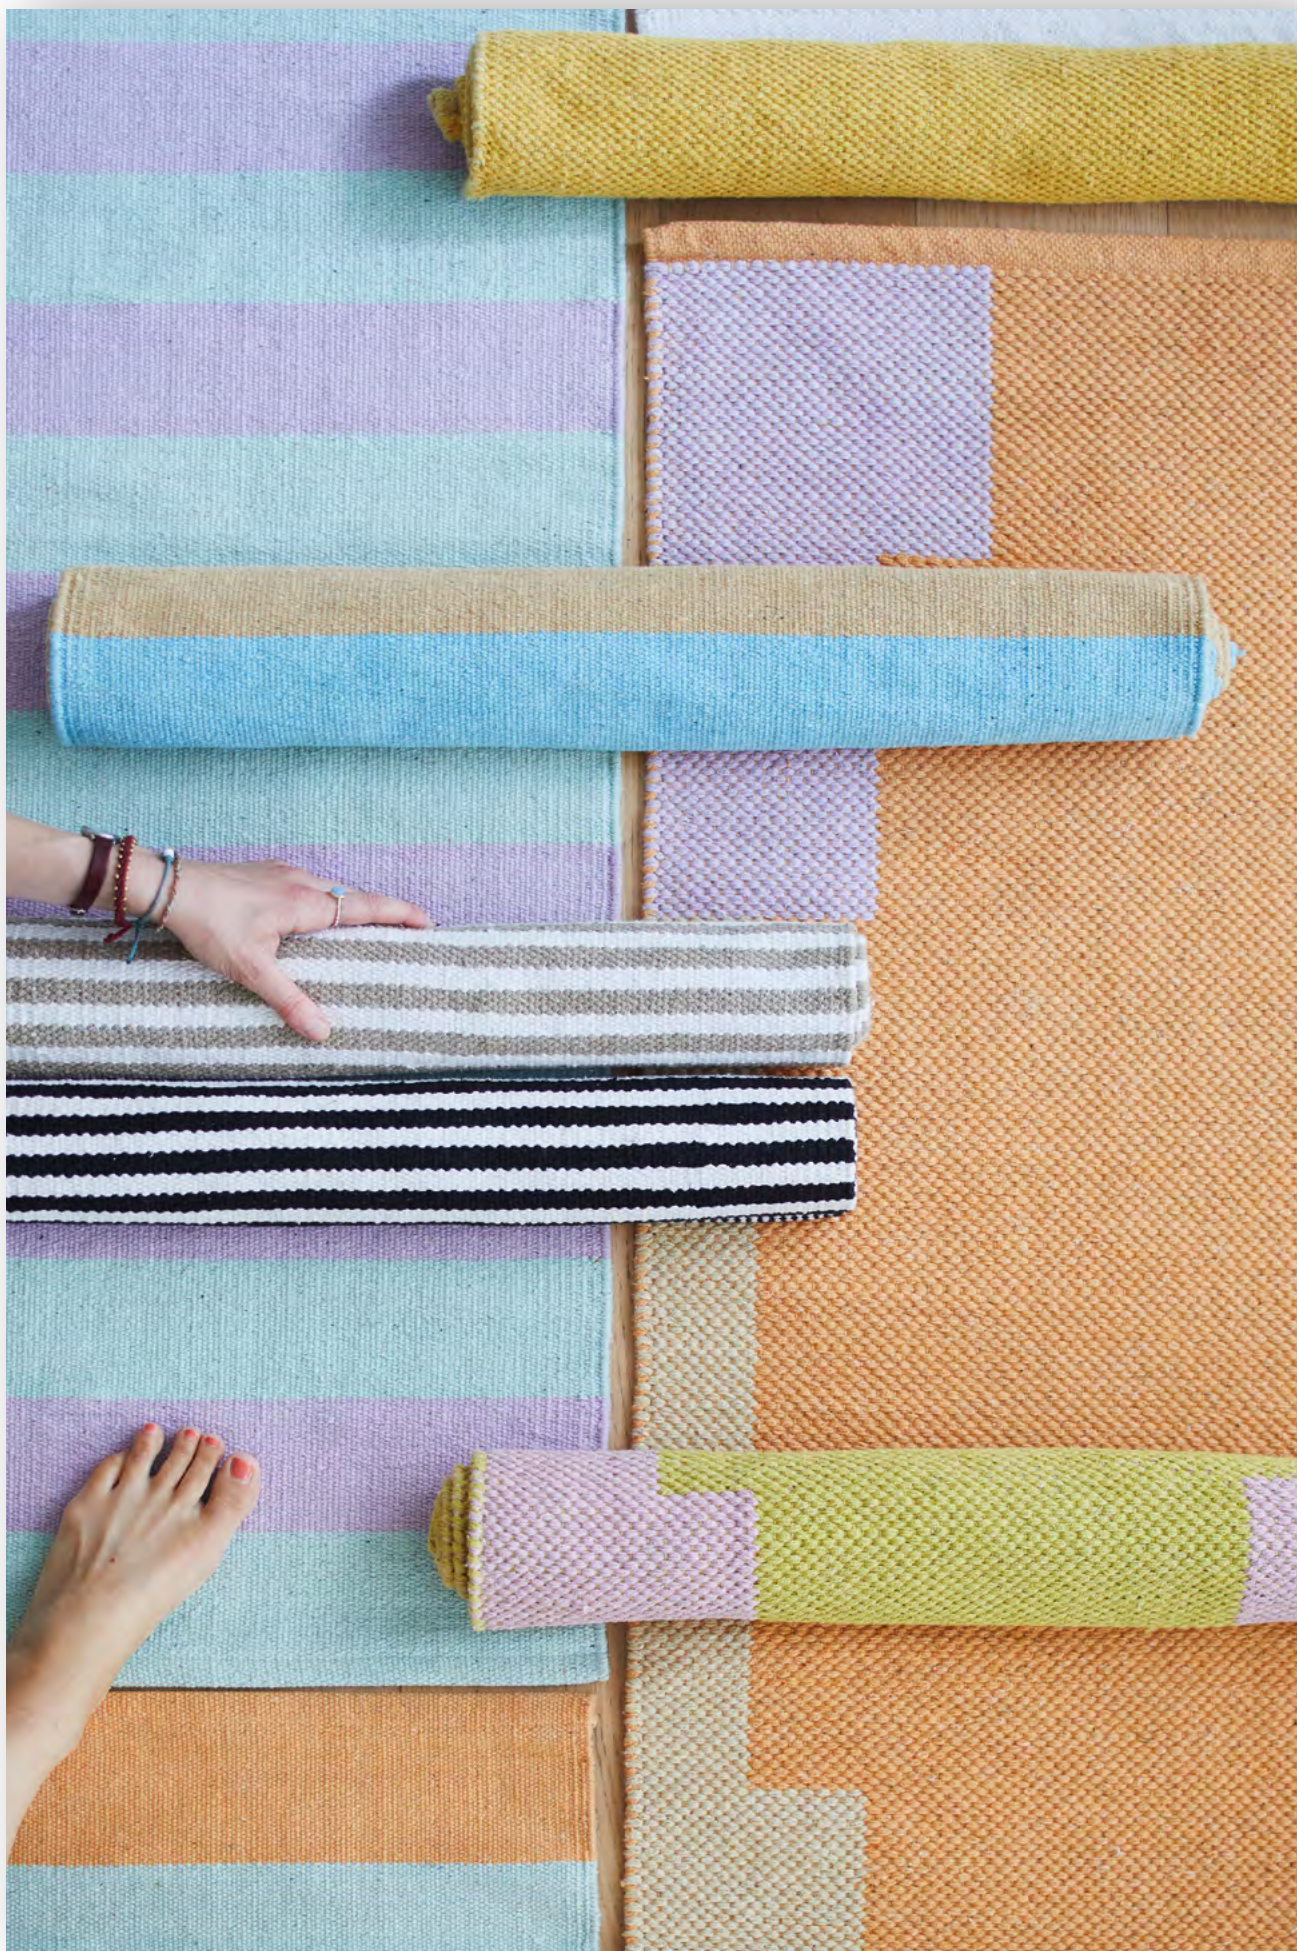

goodweave is a non-profit organization that works to end exploitative child labour, inspecting factories and providing rehabilitation and education for former child weavers.

local goodweave inspectors in nepal and india conduct random visits to the licensed manufacturers, who - when goodweaves strict no-child-labour standards are met - are issued unique, traceable certification labels for their rugs.

goodweave sponsors programmes for licensed manufacturers and their workers which include trainings on protection against environmental hazards in the workplace, human rights, health, sanitation and family planning.

www.goodweave.org

WASHABLE RECYCLED INDOOR RUGS

a wide range of rugs made of recycled clothes as well as recycled cotton leftovers from the textile industry. playful or solid, round or square - it's your choice. washable at 30° C.

goodweave | we care !

our rugs carry the goodweave label, which stands for child labour free certified rugs.

being a licensed manufacturer, we support the educational programs offered by goodweave as a key to reducing child labour and breaking the cycle of poverty.

goodweave is a non-profit organization that works to end exploitative child labour, inspecting factories and providing rehabilitation and education for former child weavers.

local goodweave inspectors in nepal and india conduct random visits to the licensed manufacturers, who - when goodweaves strict no-child-labour standards are met - are issued unique, traceable certification labels for their rugs.

goodweave sponsors programmes for licensed manufacturers and their workers which include trainings on protection against environmental hazards in the workplace, human rights, health, sanitation and family planning.
